

# FRONT-END

**FEB – APR REPORT – COMPLETED BATCH**

---

**-PRADEEP**

# FRONT-END (3:00 – 5:00 PM)

---

**TRAINER NAME : PRADEEP KUMAR**

**TOTAL NO OF STUDENTS : 3 (Karthik, Vignesh, Varadha)**

**BATCH TIMING : 3:00 PM – 5:00 PM**

**STARTING DATE : 15TH FEBRUARY 2026**

**TENTATIVE END DATE : 18TH APRIL 2026**

**LEAVES TAKEN : March 08, 14, 15, 21**

# ATTENDANCE DETAILS :

| S.No | Student Name | Present | Absent | %     |
|------|--------------|---------|--------|-------|
| 1    | Karthik      | 11      | 3      | 78.57 |
| 2    | Vignesh      | 11      | 3      | 78.57 |
| 3    | Varadha      | 12      | 2      | 85.71 |

# SESSION 1 – FEBRUARY 15 (SUNDAY)

## TOPICS COVERED :

- HTML Syntax & Structure
- Boilerplate Setup
- Tags, Attributes, Headings & Paragraphs
- Text Formatting & Lists

## SESSION SUMMARY :

Introduced students to frontend development and HTML document structure. Tags, attributes, headings, paragraphs, formatting tags, and ordered/unordered lists were covered. Practical examples demonstrated live; students practiced creating basic webpages. Extra explanation given on browser rendering and folder organisation.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | ABSENT  |

# SESSION 2 – FEBRUARY 21 (SATURDAY)

## TOPICS COVERED :

- Tables: Basic & Advanced (rowspan, colspan)
- Links: Internal, External & Anchor
- Media: Images, Audio, Video & Embeds

## SESSION SUMMARY :

Students structured data using HTML tables with rowspan/colspan. Hyperlinks and navigation explained with examples. Media embedding with images, audio, video, and iframes demonstrated. Extra: image optimisation, relative vs absolute paths, accessibility.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | ABSENT  |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 3 – FEBRUARY 22 (SUNDAY)

## TOPICS COVERED :

- Forms & Form Elements
- Input Types: Radio, Checkbox, Select, Textarea
- Semantic HTML Tags: article, nav, section

## SESSION SUMMARY :

Forms built using various input elements. Semantic tags introduced for better structure and SEO. Students requested additional clarification on form validation and layout best practices, which were discussed with examples.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | ABSENT  |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 4 – FEBRUARY 28 (SATURDAY)

## TOPICS COVERED :

- HTML5 APIs: Audio, Video, Geolocation, Web Storage
- Introduction to CSS: Syntax & Selectors
- CSS Properties: Color, Background, Font

## SESSION SUMMARY :

Modern HTML5 APIs including local storage and geolocation introduced. Session transitioned to CSS fundamentals: selectors, syntax, applying styles. Extra practice on browser developer tools and CSS color/background/font properties.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | ABSENT  |
| Varadha | PRESENT |

# SESSION 5 – MARCH 01 (SUNDAY)

## TOPICS COVERED :

- Box Model: Margin, Padding, Border, Content
- Positioning: Static, Relative, Absolute, Fixed, Sticky
- Display: Block, Inline, Inline-block, None

## SESSION SUMMARY :

CSS box model explained with how spacing and dimensions affect layouts. Positioning techniques demonstrated with real examples. Extra guidance on layout debugging and spacing consistency.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | ABSENT  |
| Varadha | PRESENT |

# SESSION 6 – MARCH 07 (SATURDAY)

## TOPICS COVERED :

- Overflow, Visibility & Z-index
- Flexbox: Container, Axes & Wrap
- Flexbox Advanced: Justify, Align, Gap

## SESSION SUMMARY :

Layout behaviour using overflow, visibility, and z-index covered. Flexbox introduced with practical UI examples including navbar alignment and card layouts. Session extended to ensure thorough understanding of alignment concepts.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | ABSENT  |
| Varadha | PRESENT |

# SESSION 7 – MARCH 22 (SUNDAY)

## TOPICS COVERED :

- CSS Grid: Basics, Rows & Columns
- Grid Areas & Auto-placement
- Media Queries & Responsive Design

## SESSION SUMMARY :

CSS Grid fundamentals explored hands-on. Grid areas and auto-placement practiced. Media queries introduced for mobile, tablet, and desktop layouts. Extra: Flexbox vs Grid comparison, viewport usage, responsive typography.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 8 – MARCH 28 (SATURDAY)

## TOPICS COVERED :

- Pseudo Classes & Elements
- Advanced Selectors & Combinators
- CSS Variables (Custom Properties)

## SESSION SUMMARY :

Advanced styling using pseudo classes and pseudo elements covered. Complex selectors and combinators explained with exercises. CSS custom properties introduced for reusable, maintainable stylesheets.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 9 – MARCH 29 (SUNDAY)

## TOPICS COVERED :

- CSS Transitions & Transforms
- CSS Animations
- CSS Functions: calc(), var(), attr()

## SESSION SUMMARY :

Interactive UI using transitions, transforms, and animations demonstrated. Students practiced hover effects, scaling, and animation timing. CSS utility functions explored. Extra modern animation practices shown beyond syllabus.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | ABSENT  |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 10 – APRIL 04 (SATURDAY)

## TOPICS COVERED :

- Responsive Navbar Practice
- Dark/Light Mode with CSS
- Accessibility Best Practices (a11y)

## SESSION SUMMARY :

Practical responsive navbar implemented live. Dark/light theme switching discussed due to student interest. Accessibility concepts including semantic structure, alt text, and keyboard navigation introduced.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 11 – APRIL 05 (SUNDAY)

## TOPICS COVERED :

- Animation and Effects on HTML/CSS
- HTML & CSS Mini Project: Portfolio
- Code Review and Doubts clarification session

## SESSION SUMMARY :

Frontend Animation basics covered. Portfolio project started integrating all HTML/CSS concepts. Karthik built responsive sections with strong layout. Vignesh implemented Flexbox-based navigation. Varadha showed solid semantic structure. Code review and doubt clarification session conducted.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 12 – APRIL 11 (SATURDAY)

## TOPICS COVERED :

- JavaScript Introduction: Syntax, Setup & Console
- Variables (var, let, const) & Data Types
- Operators, Type Coercion & Template Literals

## SESSION SUMMARY :

JavaScript fundamentals introduced: syntax, console, and scripting in browsers. Variable declarations and data types covered. Type coercion, operators, and template literals explained with real-world examples.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 13 – APRIL 12 (SUNDAY)

## TOPICS COVERED :

- Conditionals: if, else, switch
- Loops: for, while, do-while
- Functions: Declaration, Expression, Parameters

## SESSION SUMMARY :

Conditional statements and looping structures practiced with exercises. Function declarations, parameters, and return values introduced. Extra practice problems solved per student request. Session extended 20 minutes.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | PRESENT |

# SESSION 14 – APRIL 18 (SATURDAY) [Extended – 3.5 hrs]

## TOPICS COVERED :

- Arrow Functions, Scope & Hoisting
- Arrays & Array Methods
- JS Revision + Advanced CSS
- React Preparation Guidance

## SESSION SUMMARY :

Final session — 3.5 hours. Arrow functions, scope, hoisting, and array methods covered. Full revision of HTML, CSS, and JavaScript. Extra topics on request: advanced responsive design, project structuring, CSS tricks, developer tools, and React beginner guidance.

## ATTENDANCE :

|         |         |
|---------|---------|
| Karthik | PRESENT |
| Vignesh | PRESENT |
| Varadha | ABSENT  |

# TRAINING COMPLETED

---

- 14 sessions · February 15 to April 18, 2026
- Topics: HTML · CSS (Flexbox, Grid, Animations) · JavaScript Fundamentals
- Mini portfolio project completed and reviewed
- Extra topics covered on student request (Dark Mode, React prep)
- Hands-on coding, live demos & doubt clarification throughout
