WEB DEVELOPMENT & PROGRAMMING SKILLS

HTML & CSS:	Build responsive and well-structured web pages.
JavaScript & AJAX:	Create interactive web pages and handle asynchronous requests for dynamic content.
MySQL:	Design and manage databases, write queries, and perform CRUD operations.
AI-Assisted Development:	Analyze problems logically and apply structured solutions.
Time Management & Teamwork:	Manage tasks efficiently, meet deadlines, and collaborate effectively in teams.
PHP:	Develop server-side logic, handle authentication, and integrate databases.
Training Capability:	Comfortable teaching HTML, CSS, JavaScript, PHP, MYSQL and backend concepts

PROJECTS AND PREVIOUS WORKS

FinTech Website / HTML, CSS, JS, PHP, AJAX, SQL

Worked on developing basic static web pages and data entry forms using HTML and CSS. Focused on creating clean layouts, responsive designs, and structured input pages aligned with FinTech UI requirements.

Script Writing Software / PHP, MySQL, JWT, AI-Assisted

Contributed to the development of a script writing web application with focus on backend functionality. Implemented JWT-based authentication and assisted in building script creation features. Used AI tools extensively to accelerate development, debugging, and feature implementation.

HACKATHON PARTICIPATION

Hackathon Participant – Film Creators Social Platform

RDNCAS College

Participated in a hackathon by contributing to the development of a social media platform for filmmakers to interact, collaborate, write and share scripts, and connect with creative professionals.
